NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

RRC COID: 7559 **COMPANY NAME:** EASTRANS, LLC**TARIFF CODE:** TS **RRC TARIFF NO:** 20466**TUC APPLICABILITY****FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY**

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service. Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

TUC APPLICABILITY**FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY**

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service. Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

TUC APPLICABILITY

FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

RRC COID: 7559 **COMPANY NAME:** EASTRANS, LLC**TARIFF CODE:** TS **RRC TARIFF NO:** 30170**TUC APPLICABILITY****FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY**

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service. Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

RRC COID: 7559 **COMPANY NAME:** EASTRANS, LLC**TARIFF CODE:** TS **RRC TARIFF NO:** 36605**TUC APPLICABILITY****FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY**

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service. Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

TUC APPLICABILITY

FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY

Neither the gas utility nor the customer had an unfair advantage during the negotiations.

NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service.

Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

Neither the gas utility nor the customer had an unfair advantage during the negotiations.
 NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service. Neither the gas utility nor the customer had an unfair advantage during the negotiations.
 NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service. Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.

CURRENT RATE COMPONENT

<u>RATE COMP. ID</u>	<u>DESCRIPTION</u>
SOC	<p>SOC SECTION 11 -</p> <p>BALANCING</p> <p>A. Transporter shall endeavor to deliver to Shipper or its designee at the Delivery Point on a daily basis, quantities thermally equivalent to quantities received, less applicable FL&U, unless otherwise mutually agreed to in writing. Transporter shall have the right to issue .5Operational Flow Orders.5 to require adjustments to Shipper.5s daily scheduling of receipts and/or deliveries over a reasonable period of time in order to maintain a concurrent balance when the operational integrity and/or safe operation of the EasTrans System would otherwise be threatened or result in inefficient or unreliable service. If Shipper does not comply with an Operational Flow Order then Transporter may assess a penalty for those volumes that flowed in violation of the Operational Flow Order. The Operational Flow Order penalty will equal the higher of \$25/MMBtu or two (2) times the highest Gas Daily Carthage Hub tailgate index as published in the East Texas - North Louisiana Area Daily Price Survey during the Month in which the Operational Flow Order was declared.</p> <p>B. If Shipper is advised by any upstream or downstream transporter or operator to reduce or suspend deliveries for transportation, Shipper shall immediately notify Transporter orally, and shall confirm such notification in writing, of such reduction or suspension, and adjust its nominations at Receipt Points and/or Delivery Points in order to maintain a balanced position.</p> <p>C. Shipper shall be responsible for and shall bear any penalties imposed, claims made, or judgments (collectively called .5Liability.5) imposed by either</p> <p>(1) upstream and downstream transporters for imbalances between Receipt Points and Delivery Points or</p> <p>(2) well operators or well interest owners for production imbalances among the interest owners in a well. Shipper shall indemnify and hold Transporter harmless from all such Liability, including court costs and reasonable attorney fees, unless such Liability is found to be the direct result of Transporter.5s negligence.</p> <p>D. Prior to initiating corrective action, absent conditions threatening the EasTrans System integrity or safe operations, Transporter shall provide to Shipper information regarding any imbalance situation that has occurred or may occur unless corrective action is taken, and Shipper shall adjust nominations at Receipt Points and/or Delivery Points in order to maintain a balanced position. Transporter shall have the right to balance should Shipper not take immediate corrective action.</p> <p>SOC SECTION 14 -</p> <p>CASH-OUT PROVISIONS</p> <p>A. Gas volumes hereunder shall be delivered to Transporter and redelivered to Shipper as nearly as practicable at uniform hourly and daily rates of flow. After the transportation Month, Transporter shall resolve all imbalances with Shipper through a cash payment or cash receipt, as applicable. To the extent that Shipper's delivered volumes are greater than Shipper's received volumes (.5Due Pipeline.5), Transporter shall invoice Shipper for the imbalance based on the net Monthly imbalance multiplied by the cash-out price. To the extent that Shipper's delivered volumes are less than Shipper's received volumes (.5Due Shipper.5), Transporter shall make a payment to Shipper for the imbalance based on the net Monthly imbalance multiplied by the cash-out price.</p> <p>B. 1. The average price is equal to the arithmetic average of the Gas Daily Carthage Hub tailgate index as published in the East Texas .5 North Louisiana Area Daily Price Survey during the Month in which Shipper.5s net Monthly imbalance was incurred.</p> <p>2. Should the information necessary to calculate the prices cease to be available, Transporter shall determine a substitute publication(s) providing equivalent data.</p> <p>C. The Shipper.5s imbalance tolerance percentage shall be calculated by dividing the net Monthly imbalance by the Shipper.5s allocated delivery volumes. The net Monthly imbalance is equal to the absolute value of Shipper's entitlements into Transporter less the allocated delivery volume. The cash-out price shall be determined using the table below for either the excess (Due Shipper - received is greater than delivered) or shortage (Due Pipeline - received is less than delivered). If the imbalance is less than one thousand (1,000) MMBtu, the cash-out price shall be 100% of average price. Imbalance Tolerance %: 0 to 5%, Cash-out Price per MMBtu (Due Pipeline): 100% of Average Price, Cash-out Price per MMBtu (Due Shipper): 100% of Average Price Imbalance Tolerance %: > 5% to 10%, Cash-out Price per MMBtu (Due Pipeline): 115% of Average Price, Cash-out Price per MMBtu (Due Shipper): 85% of Average Price Imbalance Tolerance %: > 10% to 15%, Cash-out Price per MMBtu (Due Pipeline): 130% of Average Price, Cash-out Price per MMBtu (Due Shipper): 70% of Average Price Imbalance Tolerance %: > 15% to 20%, Cash-out Price per MMBtu (Due Pipeline): 140% of Average Price, Cash-out Price per MMBtu (Due Shipper): 60% of Average Price Imbalance Tolerance %: > 20%, Cash-out Price per MMBtu (Due Pipeline): 150% of Average Price, Cash-out Price per MMBtu (Due Shipper): 50% of Average Price D. Notwithstanding anything herein to the contrary, Shipper and Transporter shall work together during the course of each Month, utilizing the most current gas receipt and/or delivery information reasonably available, to minimize or mitigate any imbalance that may accrue during such Month. To the extent that imbalances are caused or exacerbated by Shipper.5s compliance with written or verbal flow directives (such compliance resulting in increases or decreases in Shipper.5s nominations) issued by Transporter, the imbalance multiplier for such portion of the imbalance will be equal to 100%. E. In addition to the cash-out fees described above, Shipper shall be responsible for its pro-rata share of the cost of any parking, lending, storage, or other services fees incurred on any downstream Pipeline(s) to accommodate hourly or daily fluctuations in delivery volumes. Pro-rata share shall be calculated based upon each Shipper's allocated delivery volumes divided by the total allocated delivery volumes.</p> <p>SOC SECTION 15 -</p>

FACTS SUPPORTING SECTION 104.003(b) APPLICABILITY

Neither the gas utility nor the customer had an unfair advantage during the negotiations.
 NOTE: (This fact cannot be used to support a Section 104.003(b) transaction if the rate to be charged or offered to be charged is to an affiliated pipeline.)

The rate is substantially the same as the rate between the gas utility and at least two of those customers under the same or similar conditions of service. Competition does or did exist either with another gas utility, another supplier of natural gas, or a supplier of an alternative form of energy.

I affirm that a true and correct copy of this tariff has been sent to the customer involved in this transaction.
